

Jane Ellison Usher

OF COUNSEL

Jane Usher is a partner in the Firm's Los Angeles office. She represents private, public, and nonprofit entities in their regulatory affairs. Her work commonly arises out of the use of land and natural resources. For thirty years, Ms. Usher has advised clients on issues of planning, zoning, permitting, subdivisions, title, easements, covenants, real estate development, soil, air, water, energy, recycling, remediation, and the California Environmental Quality Act. Her experience includes the companion fields of the Brown Act, Public Records Act, ethics, ordinances, legislation, community outreach, public hearings, and general municipal and administrative law. Ms. Usher guides her clients from the inception of a matter, through agency hearings and determinations, to the conclusion of any litigation that might result.

Prior to joining Musick Peeler in 2014, Ms. Usher served the City of Los Angeles in a series of appointed roles. These included Counsel to Mayor Tom Bradley (1989-1993), Alternate Board Member of the Los Angeles Transportation Commission (1991-1993), President of the Los Angeles City Planning Commission (2005-2009), and Senior Assistant City Attorney/Executive Management Team (2009-2013). She negotiated the City's complex real estate matters, including for the LA Live football stadium, NBC Universal, and USC; litigated the City's highest profile cases, involving urban renewal, planning and development, building and safety, infrastructure, code enforcement, outdoor advertising and signage, medical marijuana, homelessness, and constitutional questions; and drafted and successfully defended many of the most innovative and ground-breaking ordinances, policies, and actions of the City. For this body of work, she received Tree People's Evergreen Award and the AIA California Council's Presidential Citation.

Formerly, Ms. Usher was the Assistant Dean to the USC Annenberg School. As an adjunct member of the USC Gould School of Law faculty, she taught a "ripped from the headlines" course entitled The Law of the City. Ms. Usher was associate general counsel to the 1984 Los Angeles Olympics, and general counsel to the United States Football League, the America's Cup sailing competition, and the men's and women's professional beach volleyball associations. Ms. Usher began her legal career at the law firm of Manatt, Phelps, Rothenberg & Tunney. Ms. Usher has spoken extensively on zoning, environmental and municipal law, including on the important relationships between property owners, their neighbors and social justice.

Representative Matters

Directed team of analysts in the evaluation, testing and preparation of environmental remediation work plan for client's commercial property.

Developed solid waste recycling solutions for agricultural client in response to city entry into exclusive solid waste franchise agreement.

Modernized leases and disclosures for university client to conform to new City and State housing, rent-control, eviction protection and related laws.

Provided series of legal opinions on zoning, housing replacement, and CEQA compliance to lenders in connection with client's housing development projects.

Removed one hundred year old public alley easements from title to client's commercial property.

Resolved permitting dispute and developed IRS-required environmental documentation to support conservation easement granted to California conservation agency.

Ongoing representation of charter school in its CEQA compliance and conditional use permit proceedings.

Led work of federal agency and environmental specialists in continuing effort to evaluate and remediate client's industrial properties.

Evaluated, supervised geotechnical expert, and daily monitoring of demolition and construction project next door to client's priceless art and wine collections.

Continuing representation of mutual water district in well drilling, water infrastructure, and basin adjudication matters.

Negotiated reciprocal easement agreement to resolve client's decades of litigation with adjacent property owner.

Investigated and advised horse riding academy in land use disputes.

Ongoing representation regarding CEQA, street vacation, and eminent domain lawsuits to secure capital funding for charter school.

Prepared and counseled board of directors of water company through contentious election, proxy, annual meeting, and related shareholder matters.

Advised residents on the intersection of State Density Bonus Law with municipal coastal height limitation.

Advised land owners regarding proposed group home facility in gated community of Ventura County.

Represented mineral rights lessee against recent municipal oil well prohibition and in the land use laws of mineral rights holders.

Advised charter school clients regarding revised Covid-leave laws and Covid-related Brown Act obligations.

MusickPeeler

Negotiated pipeline relocation project, permits and construction with Ventura County and State Water Board for water company.

Represented oil and gas client in preparation of its waste management and landfill plans, including regarding impact of third-party water quality litigation.

Led team of environmental experts in CEQA and well permit proceedings on behalf of water agency.

Preserved client's industrial land use designation placed at issue by city in its local Housing Element Update.

Advised pro bono in homeless lawsuit challenging the lack of action by the City and the County of Los Angeles.

Represented agricultural and mineral rights clients in General Plan Update, including CEQA issues and appropriate mitigations.

Advised oil and gas client in water board matters, including groundwater monitoring issues and waste discharge requirements.

Successfully argued CEQA error, resulting in Caltrans withdrawal of eminent domain action to take client's Malibu beachfront property and attorneys' fees.

Finalized unchallenged CEQA addendum that authorized construction of recharge basins in support of client's wastewater treatment project.

Advised adjacent property owner clients regarding County obligations for closure of Malibu Water Pollution Control Plant.

Prevented improper grant of land use permit to radio station operators and defeated their ant-SLAPP motion in clients' trespass and damage suit.

Successfully settled allegations of groundwater contamination on behalf of water company client.

Prevailed in administrative appeal to planning commission, overturning approval of national automobile dealership's parking lot project near wetlands.

Reached agreement including model short-term rental ordinance following litigation with the City of Anaheim to allow continued short-term rental operations.

Successfully argued before the California Supreme Court, overturning long-standing constitutional precedent regarding groundwater pumping charges on behalf of water agency.

Led the preparation of wastewater treatment plant EIR and obtained victory for water district client in subsequent CEQA lawsuit.

Negotiated acquisition, rights-of-way and access agreements with LADWP on behalf of property owners for Barren Ridge Renewable Transmission Project.

Advised city and joint powers authority in levee reconstruction project, including the work of state and federal permitting.
